WEEKLY 07/12-18/2009

PREPAREDNESS

BIOWATCH - continue coordination activities with HQ and START on the status and future plans for the regional program.

NIT - coordinated with regional management establishing attendees for the upcoming Key Leadership Positions training Academy to held in Baltimore August 3, 2009.

R6 EOC MANUAL- meet and coordinated with START regarding implementing the "final" edits to the DRAFT Manual.

ASBESTOS AWARENESS - coordinated with START regarding the TDD to prepare a fact sheet summarizing the region states asbestos notification and certification requirements.

RESPONSE

CONROE CREOSOTING - Conroe, Texas - coordinated with START and PRM regarding having a Metes and Bounds survey completed at the site to assist with future cap repair activities.

VIKING RESOURCES - Hitchcock, Texas - received subpoena in civil case for cost recovery and therefore, was on standby travel status pending notification from the DOJ team trying the case in Houston.

WESTBANK ASBESTOS - started again on an outstanding FOIA request that requires me to pull additional documentation from the electronic filing system.

ADMINISTRATIVE - maintain email, submitted Vouchers, planned trips for travel details, corrected People Plus from Hurricane Gus-Ike, review START monthly reports, and edited TTD amendments.
